

## Chewies Buffalo

### The extra robust chewing horns

We use only carefully selected, solid water buffalo horns for our Chewies Buffalo. These are especially robust and significantly more stable than hollow water buffalo horns. The natural horns are rich in protein, strengthen chewing muscles and can support dental care. The naturally grown shape of the massive water buffalo horns accommodates the dog's teeth. Even dogs with a very strong bite get their money's worth with Chewies Buffalo. Our water buffalo horn gives our furry friends extra-long and delightful chewing fun – even nutritionally sensitive ones. Our horns come in four sizes from S to XL. All four-legged friends can chew to their heart's content with a horn that suits them best.

**Chewies – 100 % dog!**

### PREMIUM
