

Chewies olive wood chewing stick

The alternative to sticks: sustainable and robust

Chewing relaxes and makes you happy – absolutely true for dogs. Their inborn need to chew is a highly pronounced instinct they want to satisfy. That's what our sustainable Chewies chew sticks are for. The olive wood chewing stick is one hundred percent natural and comes from the pruning of Italian olive tree plantations. The natural wood is cleaned by hand, debarked roughly and then sanded at our production facilities in the Lunenburg Heath. The natural bark content has a special appeal for furry companions. Chewies olive wood is a robust chewing wood that is harmless even when it has become soft from chewing and salivation and wood fibres are swallowed. Extensive nibbling can also support dental care and is suitable as a natural and low-risk throwing toy on the go. Our sticks come in six sizes from XXS to XL – and in an attractive wooden POS display. Calorie-free, long-lasting chewing fun.

Chewies – 100 % dog!

PREMIUM
