

## Chewies grapevines chewing stick & chewing bulb

**PREMIUM**

### **The stick alternative: sustainable & low-risk**

Our new Chewies grapevines chewing sticks and bulbs come from natural prunings from regional German vineyards. Their robust, natural wood is cleaned, debarked roughly and then sanded. This way they keep their good grip for dogs. We get our chewing bulbs from the root pieces of the vines, which grow in a wide variety of shapes and sizes. Chewies grapevines are suitable for all dogs of all sizes and statures. Each product comes with a size recommendation chart. Vines gradually fray when they are chewed. The chewed-up soft fibres are harmless even if swallowed. The wooden structure and the stimulation of the saliva flow can support natural dental care. For all dogs who love to chew.

**Chewies – 100 % dog!**
