

catz finefood BIO

**ORGANIC**

## Organic? Of course! Mmmeow!

Our catz finefood organic line stands for natural and species-appropriate farm animal husbandry and feeding. At least 94 % fresh meat and innards or fish as well as cooking liquid, supplemented with other ingredients suitable for cats, make the complete feed ideal meals for little purry tigers.

Each variety is based on a single animal species and can therefore also serve as a treat for nutritionally sensitive cats. A clear, transparent list of ingredients is just as much a part of the catz finefood philosophy as the self-evident absence of colourings, flavourings and preservatives.

catz finefood Bio is produced in Germany without the use of genetic engineering or animal testing. For varied enjoyment, we offer our organic food in six delicious flavours.

The ecologically certified taste adventure for cats.

**catz finefood – four-paw gourmet food. Mmmeow!**
