

catz finefood MEATZ

MEATZ

Premium treats made from grilled meat

For catz finefood MEATZ, we use high-quality, juicy meat from Switzerland, which is grilled and then gently air-dried. The resulting small strips are crispy on the outside and tender on the inside. This consistency is very tempting for cats. Only one valuable ingredient like aloe vera, propolis, cottage cheese or cranberry is added to a minimum meat content of 98% per flavour. The treats are a perfect addition to our wet food. As a topping, they can entice picky cats to change foods. Our gluten- and grain-free treats are also ideal for nutritionally sensitive felines. Nine monoprotein flavours and two mix flavours offer a wide range of choices. Of course, catz finefood MEATZ are free from flavour enhancers, colouring agents, preservatives and added sugar. They are produced in Switzerland without genetic engineering or animal testing and are available in reclosable 45 g stand-up pouches. A real treat for cats because they love the intense aroma of meat.

catz finefood – four-paw gourmet food. Mmmeow!
