

Hi,  
**I AM LURRO.**  
 As a former Spanish street dog,  
 I now appreciate my cosy  
 routines.  
 Daily cuddles, walks and food  
 games are especially great.  
 I love treats!

yummeez GREEN LIFE BONIES

**BONIES**

## The sustainable training treat

VEGAN or INSECT BONIES: The GREEN LIFE VEGAN BONIES offer delicious vegetables and come without any animal protein. This makes the environmentally friendly training treats ideal for dogs with an intolerance to animal protein sources. Thanks to their resource-saving insect protein, our INSECT BONIES are significantly more sustainable than treats made with conventional meat. Ideal for nutritionally sensitive dogs as they also contain no grains. Small, easy to portion and non-greasy: BONIES are ideal for training and exciting adventures in the great outdoors. Our incorruptible product testers Angelina and Lurro also confirm this on the packaging. We produce in Germany and also adhere to strict standards that are important to us: no genetic engineering or animal testing! Both BONIES flavours have a convincing natural taste without any flavour enhancers or added sugar.

**Yummeez Green Life – Consciously sustainable!**

- ✓ Reduced CO<sub>2</sub> emissions
- ✓ Ideal, non-greasy training treat
- ✓ Easily portioned bone form
