

Chewies coffee tree chewing stick

Chewies coffee tree chewing sticks are purely natural

Dogs have a natural need to chew, which shows not only when they are puppies. Many a shoe and also pieces of furniture suffer. To prevent this from happening, we offer our long-lasting Chewies coffee tree chewing sticks. These give our four-legged friends playful fun and activity in one. In addition, they can support dental care. The chewing sticks are made from the special wood of the coffee tree and are an ideal alternative to traditional sticks. When the wood is chewed, it gradually releases fine fibres, which are harmless even if swallowed. The sticks are available in five versions for different dog sizes with different biting power.

Chewies – 100 % dog!
